GRAPHIC DEVICE PACK

Version 1.0

A set of supporting brand devices derived from the official Z-Cup form. These graphic elements help create a cohesive and recognisable visual system across all touchpoints.

These devices support the layout and visual language. They must not replace the Zatiaras Juice logo.

01

Z-Flow A

A flowing curve extracted from the Z-Cup form. Use for backgrounds, highlights, or layout accents.

02

Z-Flow B

A complementary curve variation. Use for subtle graphics, section dividers, or visual rhythm.

03

Z-Flow C

A bolder curve element for larger compositions. Use to add energy and movement to layouts.

04

Cup-Lip Bar

A linear device inspired by the cup rim. Use for dividers, headings, or section markers.

05

Z-Crop

A bold cropped device from the Z-Cup form. Use for large-scale backgrounds, image frames, or editorial layouts.

06

Example Usage

Graphic devices work alongside photography and typography to create a strong, consistent brand look.

FILE FORMATS & NAMING

Version 1.0

Using the right file formats and naming conventions keeps Zatiaras Juice brand assets predictable, organised, and vendor-safe across all touchpoints.

Consistent file formats make collaboration easier and ensure the best quality in every application.

COMMON FILE FORMATS

Use the appropriate file format for each purpose to maintain quality and flexibility.

SVG

Best for digital use, icons, and situations where scalability is required. Keeps sharp quality at any size.

AI (Adobe Illustrator)

Source file for full editing flexibility. Use for creating or modifying brand assets.

PDF

Ideal for print and sharing with vendors. Use high-resolution, press-ready PDF files when required.

PNG

Best for digital use when a transparent background is needed. Use high-resolution files (at least 2000 px on the longest side).

FILE NAMING CONVENTION

Use a clear and consistent naming structure:

ZJ_LOGO_PRIMARY_MAGENTA_v01.svg

Brand abbreviation	Asset type	Version or variant	Color (if applicable)	Version number	File format
ZJ	LOGO	PRIMARY	MAGENTA	v01	svg

RECOMMENDED FOLDER STRUCTURE

Keep your files organised using the following folder structure:

- 01_Logo
- 02_Graphic_Devices
- 03_Templates
- 04_Product_Photos
- 05_Vendor_Files
- 06_Documentation

DO / DON'T

Follow these guidelines to keep files consistent and easy to manage.

DO

- Use the naming convention
- Keep version numbers (v01, v02, etc.)
- Use descriptive names
- Organise files in the correct folders
- Keep file formats as recommended

DON'T

- Don't use vague names like final-final.svg
- Don't use temporary names like latest2.png
- Don't mix different naming styles
- Don't save files outside the folder structure
- Don't remove version numbers

VENDOR HANDOFF GUIDE

Version 1.0

A simple guide for external vendors, sign makers, packaging vendors, and designers to correctly use the Zatiaras Juice brand system.

01

Use official files only.

Always use the official logo files provided by Zatiaras Juice (e.g. AI, EPS, SVG, PNG) for print, digital, signage, or packaging.

02

Do not modify the logo.

Do not redraw, recreate, retype, distort, or change the logo, icon, or wordmark in any way. Always use the official files as provided.

03

Follow exact specifications.

Use the approved colors, clear space, minimum size, and file formats as outlined in this brand guideline.

04

Request a proof.

Provide a digital or physical proof (mockup, print sample, or photo) for approval before proceeding to full production.

05

Escalate limitations.

If there are technical limitations (e.g. size, material, printing method), communicate with the Zatiaras Juice team before making any changes.

06

Approve before mass production.

Do not proceed to mass production until you receive explicit approval from the Zatiaras Juice team.

REJECT IF

Do not proceed with production if the logo is redrawn, distorted, used in the wrong colors, or mass-produced without prior proof approval from Zatiaras Juice.

Redrawn or recreated

Distorted or stretched

Wrong colors

Used without approval
